## **Angels Don't Kill**

**Children of Bodom** 

I hear the footsteps going by Watching myself slowly die Sharp pains impale through my heart Slowly tearing me apart One minute you're an angel that falls from grace? Next, the fix that I hate Pick me up from the gutter with a gentle kiss Then rips on my eyes that show me... how black it is! No. You're no good! It feels so cold Yeah, I won't turn back I'll die alone! I hear the footsteps walking by Watching myself slowly die Sharp pains impaling through my heart Slowly tearing me apart When you appear as an angel, Knocking me down, looking my way. Could you ever kill the pain in my heart? Even though they say angels don't kill. Fuck no... You're no good... it feels so cold... Yet I won't turn back. I'll die alone.

No... You're no good... it feels so cold... Yet I won't turn back. I'll die alone.
