

I Hurt

Children of Bodom

You run but I'm always a step ahead
I'm a stalker you embrace while dread
I'm not your lover, you're not my only one
I'm not the child but you made me
Your creation, your enemy
The one thing you'll regret forevermore
You can't destroy what i have become
Too little, too late, damage's done
from here on out its torture, while I laugh I laugh
And you will cry

Cause and effect and then you die
There's more to pain than meets the eye
I'm deep inside you and you're mine
So take this to your mind

I am dominant
Vile, too malevolent
The more you suffer, I hurt
I'll get under your skin
When you scream I hurt
Motherfucker I'm pain

I give you life then you take mine
Don't forget you were the partner in crime
I might be your slave but you're not my god
You're neither inside my head not fiction
My malady, my affliction
The cross I carry on my knees until you laugh
And I will cry

Cause and effect and then you die
There's more to pain than meets the eye
I'm deep inside you and you're mine
So take this to your twisted little mind

I surrender
Got no fight left in me to render
I wanna forget, you remember?
I gave you a go
The lights now green
All you gotta do now is kill me
But you keep me alive
To reap what you sew
Just let me go
Let me go

Cause and effect and then you die
There's more to pain than meets the eye
I'm deep inside you and you're mine
So take this to your mind

I am dominant
Vile, too malevolent
The more you suffer, I hurt
I'll get under your skin
When you scream I hurt

Motherfucker I'm the end

I am dominant
Vile, too malevolent
The more you suffer, I hurt
I'll get under your skin
When you scream I hurt
Motherfucker I'm pain
