

Wrath Within

Children of Bodom

Once I desire, eternity has come
pull back, the tale is black, all we have to die
You say so, I am invading vision - satisfy

Once I look back, so miracle
on a crib with the night
Sensation, call me to die

Look down, we have to sow and all waits to say go
Once I desire, be back to hear this cry: let me out

(And I am the first one, any want to die!?)

With my salvation within your pain
you gotta develop pain into your desires
What it always about: you raise your pain
why you can't desire your cold regained?
Come on, get down

I touch your legs, so cold, make me cold in the light,
and I burn now, no pain
Your pain seems so far away,
so everything that's cold in light may die down

You raise your pain and I kill your strain,
anyway, I get into your desires my way
I crave your pain;
I can't swallow your pain: why you returned
