

# My Girl

Chilliwick

Ever since she left me  
I sure feel all alone  
A little misunderstanding  
I can't get her on the telephone

Hangin' out down on Main Street  
Livin' in a different world  
Standing around with the gang on the corner  
Talkin' about my girl

My girl, she was the world to me  
She's gone, away across the street  
My girl, is just a memory  
She been so long away

She didn't have to leave me  
She didn't have to run  
She didn't have to go without a word to anyone

I hope she's doin' alright  
Got no way to know  
Unless she gets to hear this song  
Hear it on the radio

My girl, she was the world to me  
She's gone and that's a tragedy  
My girl, is just a memory  
She been so long away

I hope she gets the message  
Gotta get her back, you know  
Gonna track her down, I'll find that girl  
Gonna tell her that I love her so

Put the word on the grapevine  
Spread it all around the world  
Sooner or later I know I'm gonna get her  
Talkin' about my girl, my girl

My girl, my girl, my girl, my girl  
My girl, my girl, my girl, my girl  
My girl, my girl, my girl, my girl  
My girl
