

No Love At All

Chilliwack

You don't know me now but that's okay
You may have seen my face, but where you say
May not have all the qualities there
You know I'm not a movie star
But you can't always end up with the man in your dreams
You might end up with no love at all

No you can't always find what you're dreaming for girl
You might end up with no love at all
Can't always find what you're dreaming for girl
'Cause maybe he's not there at all
Things don't always happen like in Hollywood
I know you'd wait your life if you knew they could
But you can't always find what you're looking for girl
You might end up with no love at all

I see the fantasies are on your eyes
You hope and dream someday to love...
Not saying that your dreams won't come true
I said i know it's happened before
But you can't always end up with the man in your dreams
You might end up with no love at all

No you can't always find what you're dreaming for girl
You might end up with no love at all
Can't always find what you're dreaming for girl
'Cause maybe he's not there at all
Things don't always happen like in Hollywood
I know you'd wait your life if you knew they could
But you can't always find what you're looking for girl
You might end up with no love at all

No you can't always find what you're dreaming for girl
You might end up with no love at all
You can't always find what you're dreaming for girl
'Cause maybe he's not there at all
Things don't always happen like in Hollywood
I know you'd wait your life if you knew they could
But you can't always find what you're looking for girl
You might end up with no love at all

You can't always find what you're looking for girl
You might end up with no love at all (no love at all...at all)
