## **Secret Information**

Chilliwack

We aint' gettin' any place like this You act like nothing's happening But I can see it all in your face

It's gettin' harder for you everyday You say your life is changin' so fast But you don't know which way

And now you act so humble Don't wanna show what a good time you're havin' And you pretend to crumble Sorry now but I know what's happenin'

Secret infrmation I got the word on you You can save the explanation I've got secret information I got the word

Around and 'round we go we never stop You say it's just for fun it doesn't matter Who comes out on top

You like playin' the mysterious part But you ain't gonna get me 'cause I Had you figured out from the start

So fall apart and stumble You just wanna get a little bit of sympathy And now you act so humble I got eyes and they just keep givin' me
