

## Frozen in Time

Chimaira

Suspicion growing  
A feeling I cannot control  
Communication, communication low  
The invasion is necessary, the dangers are secondary  
This was never meant to be  
A lifetime of instability  
I guess, I was always weak  
Someone please, rescue me  
Frozen in time  
Can't control what's inside of me  
Frozen in time  
I left my soul behind  
I'm at the end of the line  
Trapped in my mind, empty and blind  
Frozen in time  
Can't control what's inside  
I see myself dying  
And all these paranoid delusions frighten me  
Manipulating vitality  
An unspeakable evil latches on to agony  
Attacking my body  
Impurity spreading through me, like a parasite  
Desensitized to the world  
While the plagues controlling, like a fucking parasite  
The same demons keep haunting  
Sending their warning, it's unrelenting  
Frozen in time  
Frozen in time  
This was never meant to be  
A lifetime of instability  
I guess, I was always weak  
October the leaves buried me  
Frozen in time  
Can't control what's inside of me  
Frozen in time  
I left my soul behind  
I'm at the end of the line  
Trapped in my mind, empty and blind  
Frozen in time  
Can't control what's inside
