

## Love Soaked Death

Chimaira

Love soaked death two suns on one tongue  
A kiss from across the universe  
The black bottomless pit of hell  
Kaleidoscope altered imagery  
I was so terrified to see is this all that I've become  
A hopeless tragedy acceleration toward infinity  
The walls are closing new reality  
Opened eye is this death?  
Love soaked death two suns on one tongue  
A kiss from across the universe  
Enter my brain sweet poison.
