## **Plastic Wonderland**

## Chimaira

Hello again my friend it's time to start there is no end Choking on diamond fantasy enter the madness Beautiful sadness you won't escape this stranglehold and it fee ls so cold And I can't stop won't stop all the highs and lows Overwhelming paranoia to ease the blows

It's a holiday, another holiday It's just a holiday in this plastic wonderland Unleashing the excess illuminate darkness You will embrace this troubled soul Can you take me higher just to make me low.
