

DNA

China Anne McClain

Lately something's messing with my head
Yeah it's hard to know what's real and what's pretend

The way I feel I don't have the cure of cure of
But one thing I know that I'm sure of sure of

I am the one and only no one is exactly like me
I am the one and only
who turned out this way it's all in my D.N.A

Do not attempt to copy I'm on this ride and there's no
stopping me

I am the one and only it's true and you're the one and
only you

Now people think they know all sides of me.
So they imitate the girl they think they see

But there only really scratching the surface surface
Cause even tho i might not be perfect perfect

I am the one and only no one is exactly like me
I am the one and only
who turned out this way it's all in my D.N.A

Do not attempt to copy I'm on this ride and there's no
stopping me

I am the one and only it's true and you're the one and
only you

Think your walkin talkin dress like me
But they can never copy the recipe

My fequency's unique to me
One of a kind, so y u runing behind , im infront of the line

Tryna make my music make the most in every way
Then Press rewind and play my songs a hundred times
For everyday....

I am the one and only no one is exactly like me
I am the one and only
who turned out this way it's all in my D.N.A

Do not attempt to copy I'm on this ride and there's no
stopping me

I am the one and only it's true and you're the one and
only you
