Always

You do you do for me like no-one else no-one else can do for me only for me nobody else no other man Stop wait a minute while I lay down and give in deep down deep

down inside, down inside always, in many ways making waves, better days

Deep down deep down inside there's noplace else I'd rather be no place else in this world I'd rather be you do for me

Stop wait a minute while I lay down and give in deep down deep down inside, down inside

Jealousy and hate reside inside of me all they do is hate and break us in two **China Crisis**
