

Are We A Worker

China Crisis

People go on living
The worker's hour shared
Women they join in anger
Their voices can be heard

We are workers
We are workers in a field

Country man and woman
Confused by all they see
Carry guns into the city
In the name of you and me

We are workers
We are workers in a field

Here's something to remember
So pass the word around
Love can last forever
In a million hearts
I've found
