

# Scream Down At Me

China Crisis

If you could see, what you want to see  
Would you stop fighting  
Why should you?

Out in a field, in an open field  
And I talk of my friend  
I wish I knew more!

I should say what I mean  
I should mean what I say  
I should say what I mean, say what I mean, say what I mean!

I shouldn't be falling to their questions  
They musn't listen at all  
Or do they?

I can't believe in myself, I should have been there  
I've no reason at all  
I've no reason!

I should say what I mean  
I should mean what I say  
I should say what I mean, say what I mean, say what I mean!

Scream down at me!  
Scream down at me!

They got you working  
They got you working day and night!  
(scream down at me!)

I should say what I mean  
I should mean what I say  
I should say what I mean, say what I mean, say what I mean!

Scream down at me!
