

## Some People I Know To Lead Fantastic Lives

China Crisis

Some people I know to lead fantastic lives  
They never try to see  
Just why they hypnotize

The truth I hear  
Is not what I always see  
They're praying hard that  
Something happens to me

I wait for the water  
I hope they'll drown  
I've reasons in my head  
For keeping myself down
