

Forever like...  
The first time I heard Big L speak  
And Biggie Smalls did a song with some niggas from street  
That's when I knew it was possible  
Now what I got to do?  
Fuck it I'm just gonna do everything that they told me not to do  
O  
Cause I ain't got a clue  
All I got is Duke  
And a whole city behind me who the fuck is you?  
No slack from niggas that's how they come up  
In my hood they shoot so much we don't even duck. for what?  
Fitted king they be like damn he to clean  
My city is shawshank and I'm andy dufrain my mane  
Cause once you think I'm sleeping I'm grinding  
I swear I hit the turnpike like every week to go find it  
Some say the kid ahead of his time  
But the only thing popping is birettas and nines  
In the city where niggas slit wrists? and stay rich  
Nigga might have it on him but I bet he won't say shit  
The realest...
