

# Keep It So Real

Chip tha Ripper

Me and my nigga be up in this thang  
Best believe these nuts gonna hang  
Take it to the left see the cold young thang  
With the ass too fat and the pink to the rang  
Hoping that and she'll know what to do  
Just gotta chose me cause a nigga won't choose  
And you see a nigga hard you know I want you  
Now we up in the mall, do you like those shoes  
What about that Louie, do you like that too?  
Met a bunch of friends invite them too  
And we'll do everything that you might wanna do  
Everything that you probably wanna do  
Now we up in the crib with the lean and the weed  
Everybody DTF indeed,  
Gotta be the fliest nigga  
That you ever seen  
Promise I can't give you everything that you need  
But I won't give you everything that you want  
Wish you give me head when i blaze the blunt  
Wish you let me hit it any way that you want  
We up in the lex with the bang in the trunk  
If a nigga run the bars and I'm blazing them up  
5 to the ghetto, ladies fuck  
Cause the codeine spilling all out the cup  
Everybody know nigga, I don't give a fuck  
Chevy in the purp with the sprite and the ice  
Wassup bitch right you might see me twice  
She don't love me she love my life  
She don't love me she love my life  
Damn she hella cold, nigga head is so tight  
excuse my fresh, be polite do my best  
Keep it so real don't like that shit  
Keep it so real don't like that shit

God damn, god, god damn  
Keep it so real don't
