Chipmunk

Look, I never fail to turn up my weakness, I supply teachers.  
a musical genius I should write speeches  
Father forgive me, I sin with the women  
I'ma prince with the vision but a king with the written  
If the world don't end when I drop my verse,  
I'll check myself in and play doctor, nurse.  
I married beat, that's a rap with urb- my family, I adopted words.  
So there ain't no quittering me, I'ma bring home the bags while I'm living i  
n T- yeahh  
I take sugars but not I make sweet, just a living nightmare or another stran  
ge dream  
Yeahh that's always about doing it, my chicks there and always I now doing i  
t.  
So till the day that I live in the sky, ill make sure that I'm living on sky  
.

There ain't no liar in me, just fire in me  
I don't know how to quit, blame the tryer in me  
And I've been spitting fire on beats and only now your noticing me?  
Naaah, this ain't make belief, I'ma make you believe  
Opening the doors so that everyone can see- Chyeaah  
Anytime that me and Wretch are on the beat  
Armageddonnnn!

Apply the class that I travel on the plane to my lifestyle,  
business first, the jet's my speed  
Compete with whom, my names my league  
Right now I'm tryna win against me, so? I don't mind defeat  
I get it on when its crunch time, I let the beat punch and then punch line  
Let the single pop when its chart time  
A bag of success, bullets loaded  
And next year I'ma matrix reload it  
Let the pricks all tell me who the one is  
Not even that I care who's the best,  
if I never done well you might have never heard the rest  
Might duppy a song with missiorettes  
I might hop on stage with JLS  
Like who's gunna send for me next  
Straight cash coomee in, I take check.

There ain't no liar in me, just fire in me  
I don't know how to quit, blame the tryer in me  
And I've been spitting fire on beats, and only now your noticing me?  
Naah this ain't make belief, I'ma make you believe  
Opening the doors so that everyone can see- Chyeaah  
Anytime me and Wretch are on the beat  
Armageddoonnn!

Bring out the guns, make sure your ready for whats going down  
Bring down the storm, bring down them rain, get underneath them bring down t  
he pain  
It doesn't matter, night or day I will love in every way  
Its just the fire in me yeahyeaah  
And there ain't no liar in me

There ain't no liar in me, just fire in me  
I don't know how to quit, blame the tryer in me

And I've been spitting fire on beats, and only now your noticing me?  
Naah this ain't make belief, I'ma make you believe  
Opening the doors so that everyone can see- Chyeaah  
Anytime me and Wretch are on the beat  
Armageddoonnn!
