

In The Air

Chipmunk

In the air, in the air
Put your lights up in the air
In this moment, come together,
Be as one without a care

In the air, in the air
Put your lights up in the air
In this moment, come together,
Be as one without a care

Yeah, what is everybody afraid of me for?
See the age I came through I weathered the storm
I'm playing with thunder and firing cells
They making it rain, safe
We making it hell
You wanna visit fire
I throw you to hell
They can't see me
But they feel me, I'm basically braille
You're looking at the Holy grail and this is what I wanna make
I don't care if it sells

Put the lighters up (go on put 'em in the air)
Put the lighters up (everybody, everywhere)
Put the lighters up (high, where I can see)
Put the lighters up (so, you can shine like me)

Why you, why you, why you actin' like you aint heard of me
This is sick to you, this a verse to you
And everybody's gettin' deals now
Cause every frickin' label wants one of me
Yeah, you can't replicate my style
I'm on my high horse, no Ralph
And you're looking at the Holy grail and this is what I wanna make
I don't care if it sells

Put the lighters up (go on put 'em in the air)
Put the lighters up (everybody, everywhere)
Put the lighters up (high, where I can see)
Put the lighters up (so, you can shine like me)

This is straight up, you can't F with me music
Never chose it, it's destiny music
This aint other music, this is confidence crusher music
There aint too many that I'm cool with
I'm just tryna take it, but no-one has took it
Yes I am a novelty, hench all the bookings
Never touched the drop, but they smell what I'm cooking
I did it without looking whilst you can't get a loook in!

Put the lighters up (go on put 'em in the air)
Put the lighters up (everybody, everywhere)
Put the lighters up (high, where I can see)
Put the lighters up (so, you can shine like me)
