

Going To The Peelers

Chixdiggit!

Ten calls won't make no difference
'Cause I ain't seeing you tonight
Since you and that guy got going,
Well I just ain't been feeling right

I can't be with you tonight
It ain't right
Got home,
One message for me,

Our song was on the machine
Now I got a song in my head,
A combination of Glen Campbell and Queen
Can't think about you tonight

That's right
I can't think about you
You really think about me?
Basically I gotta go to

Where you ain't gonna be
Can't think about you
Can't think about you
I'm going to the peelers

I left my car, took the train downtown,
I didn't really feel like a drive
A friend once said there's nothing
Like the maid to make you feel you're alive

Can't say he's exactly right tonight
Can't think about you
You really think about me?
Basically I gotta go to

Where you ain't gonna be
Can't think about you
Can't think about you
I'm going to the peelers

Can't think about you
You really think about me?
Basically I gotta go to
Where you ain't gonna be

I can't think about you
Can't think about you
You really think about me
You came

What did you see?
I ask someone I know
How can you pick me?
I can't think about you

I can't think about you
You really think about me?

You really think about me?
