

Thursday Night

Chixdiggit!

Talking to my friends at work today
Times are getting them down
They asked me for advice
Thursday night is the night
I always go out
You don't gotta wait for Saturday
The party's going right now
You want to feel alright Thursday night
You want to go on downtown

Well it was Thursday (Thursday) Thursday night
Well it was Thursday (Thursday) Thursday night
I feel alright, Thursday night
I get down
They were only worried about one thing
They didn't want to get fired
Those who know how to rock and roll
Can make it through a day tired
Everybody's happy at work today
A couple look a bit gone
There's a sign you know

"Run out of rope, tie a knot
And hang on" for Thursday (Thursday)
Thursday night Thursday (Thursday) Thursday night
I feel alright, Thursday night
I breakout you got you problems?
You hate life?
You want to feel alright?
Get your shoes on off the couch
It's Thursday night
I'm living for Thursday night
I'm living for Thursday night
I'm living for Thursday night
I'm living for Thursday
