

Let's Ride

Choclair

Yes sir
When the man wanted to ride, what did he do?
Swing down sweet chariot
He told that sweet chariot to swing on down

And stop, you know what I'm sayin'
So he could get on
Now this is what we do
We playin' we playin' the role of that sweet chariot

And we swingin' down to pick you up
Know what I'm sayin'?
Ridin', for real
Now, it's like, you want to ride with me

You don't even know what ride is, look
If you want to get clean, you want to get dirty
You want to go left, right
This what we do

Well it's the Nocka, The Chiz Rocker
Party while I'm wine drinkin'
My rhymes will bust a hole right through your thinker
Forget your strategies when you battle

International record sales
People try, but they fail
It's the Chizzo, or the Choco
Surround my street like a blocko

Before the shots ring out
People never seen or even heard
But we ran through your HQ's
Like a pack of germs, people swerve from the gamer

Suave player, I'm all black like the Raiders
You wonder how I did it, album anticipated
Well it's the ninth inning
With two outs I hit a home run to left field like Carter did to Philly

Do you understand me? Ha, really?
No MacGyver tactics can stop my theatrics
I'm making ladies back flip
Understand it's all about the sexual heating up your set like it's tropical

Stop it, my UV's will burn your skin, singe your optics
Twenty One years was ground work
People hear me coming, so haters got mad work
But understand it's all about the suave, diggy-dog
Just ride

If you feelin' my vibe then we can all just (Ride)
If you want to get down then we can all just (Ride)
All my people throw your hands up high and just (Ride)
Where you from? Eastside to Westside just (Ride)
All my people from uptown to downtown just (Ride)
From Cali to NY, you know we gon' just (Ride)

From the Florida Keys to BP just (Ride)
All my people worldwide, how you feel, just (Ride)

You see, I flow like an 850, the turbo
Down the lake shore with po-po chasing
Then you be wastin' your time (Swing down sweet chariot, stop)

If you try to check for flaws
'Cause if you bet against Chizz-nocks
Count your loss
See I don't care what you think or say

What you do, I got a crew that run up in your HQ
Dissed by who, six foot one, sleepy eyed
Dark skinned glasses reflecting from the sun, nigga
Check that poster, I lay your girl down like a coaster

Drop my glass, slap that ass
Don't care about a thing
See it's all about the way Chocs makes the bells ring
People talkin' shit but can't do a damn thing

So understand this, it's all about the lyricist
No one can rock a beat just like I
Borough Side representer, see-H the I-Z
Knows how to ride, understand?
Just ride

All my peoples on lock down, you know we can (Ride)
All my peoples on the corner hustlin' just (Ride)
All my girls in tight skirts, you know we gon' just (Ride)
All my people pushin' fat rides with illy rims just (Ride)
If you can feelin' the vibe, then we can all just (Ride)
All my dames in sexy belly chains just (Ride)
All my people from the T-dot O, just (Ride)
All my peoples worldwide, how you feel? just (Ride)

See I like the chiquitas light and dark skinned
Me, I love Senoritas, that's where my hearts been
Now I be chillin' with my boys Paranorm'
Having freaks in the living room suckin' it hard

See I don't care what you think, nigga
Yo, I'm laughing at your bitch-ass
So niggas mind you speech when you talk
All these people gettin' mad and vexed

Sayin' all I talk 'bout sex
Make a fuss 'cause they nuts don't bust
So understand who I is (who you is)
I got an SDS smile, with your girl's got an ass like an E-class

I can drive it like a five-speed, stick shift
Understand the ill shit that I possess, nothin' less
If you stress, you be left blind, so read it up in brail
Hard rock's coming but they always come frail

Collaboration produced by Kardinal
Now if you want to ride, everybody needs to understand
Just ride

All my Paranormal people, how you feel, just (Ride)
All my FOS people how you feel, just (Ride)

All my Circle mother fuckers, are you gonna just (Ride)
All my peoples on Knee-deep, you know we just (Ride)
All my peoples on the hill, how you feel, just (Ride)
All my peoples in Hilltop, you know we gon' just (Ride)
All my peoples from Rexdale, you know we gon' just (Ride)
All my people from the T-dot O just (Ride)

Swing down sweet chariot, stop
Swing down sweet chariot, stop
Swing down sweet chariot, stop

Do you want to get down with this?
You can if you like
Give me a call
For real
