

Culture Cease

Chokehold

This land was not found, it was stolen and raped
It's not the land of the free, freedom brings expression and culture
The real voice of this land has not been heard, it's been gagged by unthinking white tradition
Their blood stains the streets where our cities stand as we watch their cultures decay
So we gave them a choice of how to live their life
That being our way or no way at all
You'll believe our religion, live by our tradition, and forget everything you did in the past
Live by our laws, live by our rules, and we'll take everything you ever had
Now you scream love it or leave it with your flag so high and proud which is nothing more than a symbol of rape and hate
The American dream is for everyone except the true people of this land
