

## On Fire

## Chokehold

Waving you flag like I should kneel down and pray  
I don't give a fuck about your colour or nationality  
You preach about power, you're white and you're pure  
You're the kind of idiot your country prefers  
Too ignorant and blind to see their lies  
Through their corruption the truth they hide  
Honour the flag, and nation of liars  
Watch me show my hate as I light it on fire  
Too blind to see I'm on fire  
Too proud to see I'm on fire
