

To Whom It Concerns

Chris Andrews

My friends please hear me do, I've got a message just for you

Now have you some-one who you really love?

A special person who you think the whole world off?

And does this some-one have a hold on you and they won't let go
but you don't want them too?

And so to whom it concerns, all you in love, that's whom it con-
cerns

You can help it, you like it, feeling this way

You wanna be love, every day

You can sleep at night 'cause love is on your mind

And that's how love can sometimes treat you so unkind

When at last sleep comes, who do you dream of?

The most wonderful person, yes, the one you love

And so, to whom it concerns

All you in love, that's whom it concerns

You can't help it, you like it, feeling this way

You wanna be loved, every day

And so, to whom it concerns

All you in love, that's whom it concerns

You can't help it, you like it, feeling this way

You wanna be loved, every day

Ooh, I know that I

And I know I love her more and more, you see
