

1989

Chris August

Verse 1:

Summer day, seven years old  
And I took a ride on my bicycle  
I can still feel my face against the wind  
A backpack full of my favorite toys  
Singing songs just to make some noise  
Is a good way for a day to begin  
I remember when life was simple way back then  
Now I'm trying to see through those eyes again (through those e  
yes)

Chorus:

If I could turn back time  
I'd go to 1989  
Where everyday was full of chasing dreams  
Yeah, I may be grown up but maybe I should try  
Living like it's 1989

Verse 2:

Deep inside this Texas heart  
There's an innocence underneath the scars

Waiting to be called outside to play  
Wanna feel like a wide-eyed kid,  
Wanna put it all back into perspective  
God You're great just because You're great  
It is so uncomplicated with You here (with You here)  
You make the person that I once was reappear  
You reverse the years

Chorus

Bridge:

I'm sorry that I made it something complicated  
I am ready now, it's not too late  
Everyday I'm learning it's all about returning  
I'm living me life with child-like faith  
I'm sorry that I made it something complicated  
I am ready now, it's not too late  
Everyday I'm learning it's all about returning  
I'm living my life like I could...  
Turn back time and go to 1989
