

Don't Close The Door

Chris August

I'm trying to catch you right before you leave
Cause you gotta hear these words from me
What you saw wasn't what it seems
Our story isn't ready for an ending

It's not alright
It's not okay
To not hear me out and walk away
Just settle down
Let me explain
But if this is where it ends today

[Chorus:]
Baby if you close the door
You walking out on everything that we've done before
You don't have to close the door
Don't throw away the key
Until you know for sure
Don't close it on me
On me on me
On me on me
On me on me
(Don't close the door)

Don't close it on me
On me on me
On me on me
On me on me

Don't close the door

We've been through bigger situations before
You can see that if you stop looking through the peep
hole
I know right now the problems are all that you see
Thinking now you'd have a better picture of me

It's not alright
It's not okay
To not hear me out and walk away
Just settle down
Let me explain
But if this is where it ends today

[Chorus:]
Baby if you close the door
You walking out on everything that we've done before
You don't have to close the door
Don't throw away the key
Until you know for sure
Don't close it on me
On me on me
On me on me
On me on me
(Don't close the door)

Don't close it on me

On me on me
On me on me
On me on me

Don't close the door

Are you sure this is what you want
If you want let me know now
Cause once I'm gone, I'm gone
You know we both know how

[Chorus: x2]

Baby if you close the door
You walking out on everything that we've done before
You don't have to close the door
Don't throw away the key
Until you know for sure
Don't close it on me
On me on me
On me on me
On me on me
(Don't close the door)

Don't close it on me
On me on me
On me on me
On me on me
