

# Just Close Your Eyes

Chris August

Letters in the mail and compare us and fail I just need  
you closer wishing to the stars just to be where you  
are that's my life without you  
So I suggest that we try to make good of this night  
even though the feelings out of reach there's still a  
way that we can see if we just close our eyes  
Just close your eyes  
Just close your eyes  
Just close your eyes (Baby)  
Just close your eyes  
When you're hurting like crazy from missing your baby  
just give this a try cause I'm always there if you just  
close your eyes  
Ribbon in the sky is what keeps hope alive that we'll  
make it through this heaven is the place that I picture  
your face you must've walked on water  
So I suggest that we try to make good of this night  
even though the feelings out of reach there's still a  
way that we can see if we just close our eyes (yeah)  
So just close your eyes  
Just close your eyes  
Just close your eyes (Baby)  
Just close your eyes  
When you're hurting like crazy from missing your baby  
just give this a try cause I'm always there if you just  
close your eyes  
Ten thousand stars could never fall like I did baby  
yeah so although I'm gone I'm yours till I burn out  
baby yeah  
I wanna hold you tight I wanna kiss you tonight I wanna  
meet you there all you gotta do just close your eyes  
When you're hurting like crazy from missing your baby  
just give this a try cause I'm always there if you just  
close your eyes
