

Kind Of Alone

Chris August

Hey pretty baby
Ain't seen you lately
Girl I'm missin' you
I had to call
I hope that you miss me too

And I was thinking
More like dreamin'
That I was kissin' you
I hold you tight
I hope that you're dreamin' too

And it hurts my hear to see your face
My mind is such a messy place when you're gone
So I close my eyes
And I'm imagining the two of us
You're back again just out of touch
You're here, 'til I open my eyes
And that's just our luck
Time hates us both
You heard the words I never spoke
Lover come home
'Cause I'm kind of alone tonight

Girl I've been lonely
My heart's below me
Come and pick it up
Come to save me
Baby come to love

No means yes
And yes means forever
Baby we're still together
Still loving stronger than ever, whoa baby

And it's cold at night when you're away
I guess this bed has too much space for one
So I close my eyes
Now I'm imagining the two of us
I love your eyes, your smile, your touch
Ohh your lovin'
Do I have to open my eyes? I guess I do
Baby that's just our luck
Time hates us both
You heard the words I never spoke
Lover come home
'Cause I'm kind of alone tonight

I've got this feeling baby I just can't deny
So if I'm actin' like I'm crazy know that's why
'Cause I get this pain inside my hear everytime you
leave
I miss my baby, baby come home back to me

Lover come home
'Cause I'm kind of alone tonight
Lover come home

'Cause I'm kind of alone tonight
Kind of alone tonight
