

Let The Music Play

Chris August

People in the church, if you feel these words
Raise a hand if you never got your feelings hurt
Well it's no surprise, there's not a hand in sight
Don't ya see, we all need a little work sometimes

So can we just rewind for a minute
'Cause you know we all could use a second pass
Don't matter if you lose or you win it
'Cause all this mess you're in won't last so

[Chorus:]

Hold on ain't no need to worry 'bout today
Just let the music play
Hold on life is like a song that never fades
So let the music play
Just let the music play
Let the music play

Now insecurity, negativity
Got your head hanging down when it shouldn't be
Ya gotta realign, it's just a frame of mind
'Cause in the end everything is gonna work out fine

So can we just rewind for a minute
'Cause you know we all could use a second pass
Don't matter if you lose or you win it
'Cause all this mess you're in won't last so

[Chorus]

Hold on, hold on
Come on let the music play
Just let the music play

[Chorus]
