No Far Away

Chris August

When I ran from You, I ran to You
And when I tried to hide, I found You there
And when I told You no, You knew right where I'd go
So when I ran from You, I ran to You

There's no way to get far away from You
There's no way to get far away from You
There's nowhere I could go that You're not already there
There's no way to get far away from You

There is no height or depth to hold You back
There is no towered veil to hide Your face
Cause You tore it down, now we see You all around
So when we run from You, we run to You

I fell so far I was so far gone
Then I saw You yeah I saw You
I climbed so high that I could not breath then I saw You there
You called me close and my heart gave in and I saw You I saw You
But what matters the most, in the midst of my sin, I saw You there….so

When I ran from You, I ran to You
