

This Side Of Heaven

Chris August

Everyone's got their own opinions
There's nothing they don't know about
But in the end nobody's winning
'Cause nobody's got it figured out

[Chorus:]

Oh the things we think we know
But honestly we really don't
This side of heaven
Save the worry, stop the hate
It doesn't matter anyway
This side of heaven

You can make your own decision
You can write it on a sign
But when it feels like something's missing
Listen up and I'll tell you why

[Chorus]

Oh the things we think we know
But honestly we really don't
This side of heaven
Save the worry, stop the hate
It doesn't matter anyway
This side of heaven

I remember how He showed me
Love is first above all
And that judgment should come slowly
'Cause we all have our faults
