

# Add Me In

Chris Brown

Your body's an isosceles  
And I'm just tryna try angles  
Your love is trigonometry  
Just tryna solve the whole equation

What's it about you (about you)  
I wanna love you  
Picking you up, picking you up  
So I can touch you  
Should we do that? Can I do that? (baby)  
Answers are usually in the back

Substitution, add me in  
Multiply my love  
Is that too much?  
Substitution  
What's the problem, girl?  
Add me in

Baby just add me, baby just add me in  
Baby just add me, baby just add me in

I'll calculate her home invasion  
Divide your legs and count to 3 (3, 2, 1, come on)  
He's just not the answer baby  
And that's just my hypothesis

What's it about you (about you)  
I wanna love you  
Picking you up, picking you up  
So I can touch you  
Should we do that? Can I do that? (baby)  
Answers are usually in the back

Substitution, add me in  
Multiply my love  
Is that too much?  
Substitution  
What's the problem, girl?  
Add me in

Girl if I said I loved you, I need you  
Would you care?  
So many things that I could learn  
Baby if we do the math, it will equal up to me!

Substitution, add me in  
Multiply my love  
Is that too much?  
Substitution  
What's the problem, girl?  
Add me in  
(2x)

Baby just add me, baby just add me in  
Baby just add me, baby just add me in  
(2x)
