

# Came To Do

Chris Brown

It ain't nothing to make you want it  
Get you tipsy, you little blondey  
I pulled up in the S-500  
Fucked up, feeling all up on it

You know what I came to do, you  
You know what I came to do  
You know what I came to do, you  
You know what I, oh

You know what I came to do, you  
You know what I came to do  
You know what I came to do, you  
You know what I came to do  
You know what I came to do, you  
You know what I (for all my ladies)  
You know what I came to do, girl

For all my ladies  
For all my ladies

Baby you're so damn beautiful and I  
I really like it, I love your smile  
And the way that you move, yeah yeah  
Baby, can I have a minute  
Girl I promise I won't waste your time  
'Cause I know you're kinda busy  
Basically all I'm tryna say is you caught my eye  
I know you need love, I'm tryna give it  
And if you don't trust me I'll show you  
I'm a man of my word, girl  
And if you're ready for the world I'll give it to ya  
I'm so in love, like

It ain't nothing to make you want it  
Get you tipsy, you little blondey  
I pulled up in the S-500  
Fucked up, feeling all up on it

You know what I came to do, you  
You know what I came to do  
You know what I came to do, you  
You know what I, oh

You know what I came to do, you (you know)  
You know what I came to do  
You know what I came to do, you (you know babe)  
You know what I came to do (I came to do)  
You know what I came to do, you  
You know what I (for all my ladies)

See I'll give you what you want (what you want)  
And he'll give you what you don't (what you don't)  
I'm the man of the year, you just the man of the month

A hundred stacks in the trunk, (he gon' do it)  
She got a hundred packs in the dump, (he won't do it)  
And she type to fuck with real niggas (yeah)  
And I'm the type that you want, (and you knew it)  
See I'm just out to getting money while these niggas need a loan  
Why you fuckin' with these dummies, we need to be alone  
'Cause I'm wanting you, baby  
So what it do? 'Cause I wanna change it

You know what I came to do, you  
You know what I came to do  
You know what I came to do, you  
You know what I came to do (came to do)
