

Girl of My Dreams

Chris Brown

Hey, woah

Would you mind if I, take my time, and admire you
Candle light, a little wine, to set the mood
Baby know you won't have to do much
Ain't no pressure, we ain't gotta rush
Wanna know what's on your mind before we touch, touch

So do you mind, if I take my time?
Baby we got all night, I wanna love you right
Do you mind if, if I take it slow?
We got all night, to grow
And baby please just let me know
Baby let me know

Yeah, it's all you gotta do baby
It's all you got to do baby, oh woah
Can you hear me babe?

I know plenty have, in the past, took advantage of
How beautiful you are, they don't know about real love
Oh my God, girl just stand right there
That lingerie and them curls in your hair
I don't understand why he don't know what he had
Ooh girl, I've been watching you, waiting for tonight
Take it off, leave it on, ooh baby I can't decide
So amazing

So do you mind, if I take my time?
Baby we got all night, I wanna love you right
Do you mind if, if I take it slow?
We got all night, to grow
And baby please just let me know
Baby let me know

My eyes on you (You)
Wanna spend my life, my life with you
Don't worry 'cause it's saved, it's saved for you (Uh, for you)

So do you mind, if I take my time?
