Make it so new make you never wanna go back to the old you
Ciroc and lime give it a lil time
And she gon transform like Optimus Prime

Need a ride I can range you up
Money I can change you up
You can have your own
No longer be the passenger
Swag low ill build you up
Knees weak Ill stand you up
Red lips red dress like 'em like a firetruck

Whatcha need you can have that
My black card they don't decline that
See potential in ya
Let me mow that
(I can transform ya I can transform ya)

Something like Pinocchio
If you ly down I'ma grow
Wanna see me do it big

Take you from an amateur to being professional
I can have you swag surfing

Whatcha need you can have that
My black card they don't decline that
See potential in ya
Let me mow that
(I can transform ya I can transform ya)

I can transform ya

Anything you want
I can I can get it for ya
Get my baby girl she could know I did it for ya

I can transform ya I can I can transform ya
Anything you want I can I can get it for ya

Ok

I can transform ya like a transformer
I turn you from a human to a Carter
Take you off the bench
T-Turn you to a starter
Then I take you home and put you on a charger
T-Then my car transforms to a charter
And we could fly to wherever you ever thought of
I'll take you to where its warmer
Then I gotta rip off your dress like a warm-up
But I'm just getting warmed up
So tell ya man he better get his voltron up
I transform her to a Ducati
Then I transform me to a Bugatti
Cause her form puts me in a trance
I transform smaller and she puts me in her pants
Swiss on the beats Chris move ya feet
And Weezy transform a good girl to a freak

I can transform ya
I can I can transform ya
Anything you want
I can I can get it for ya
Get my baby girl she could know I did it for ya
I can trans I can trans I can transform ya
Shoes you got it got it
Bags you got it got it
Cars you got it got it
M-M-Money you got it got it
I can transform ya I can I can transform ya
Anything you want I can I can get it for ya
