

## Lady in a Glass Dress (Interlude)

Chris Brown

Lady in a glass dress  
I can see right through you  
You act like you don't want this  
But you know that you do  
Since he broke your heart, girl  
You say you'll never love again  
And you won't let it stop girl  
But we know in the end

You still dream, dream  
You still dream, dream  
Baby, I can make your dreams come true

Oh, oh  
Lady in the glass dress  
Oo, oo
