

# Sing Like Me

Chris Brown

I got her singing  
I got her singing  
I got her singing  
I got her singing, ohh  
I got her singing, ohh  
I got her singing, ohh  
I got her singing, ohh

Soon as I step out the whip they spot me  
Girls snappin pictures like the poparazi  
So many different type of women I'm into  
And I can take them all with me and my only issue

I wanna leave out of here and take em back to the crib  
And show how I do the cho-cha  
Hit em like so-sa  
I wanna leave out of here and take em back to the crib  
Cause you know what I thinkin with the love that I'm makin

There so many ladies  
Up in this club that I can choose from  
And they all look amazing  
That's why it's so hard to just pick one

When I get them off in the room  
We aint playing by no rules  
Got em singing melodies  
And it sounds like ya favorite song playing on the radio  
Can't get enough of me  
Gotta girl singing like me  
Gotta girl singing like me  
Gotta girl singing like me  
Gotta girl singing like me

All these bottles poppin got me feeling nicely  
Leaving by myself feels highly unlikely  
Lookin for a right now don't need no wifey  
Settling down one chick that aint even like me

So many women in the atmosphere  
Gotta leave with at least three in a pair  
The look in they eyes tellin me that they want it  
But all I can hear is to put a ring on it

There so many ladies  
Up in this club that I can choose from  
And they all look amazing  
That's why it's so hard to just pick one

When I get them off in the room  
We aint playing by no rules  
Got em singing melodies  
And it sounds like ya favorite song playing on the radio  
Can't get enough of me  
Gotta girl singing like me  
Gotta girl singing like me  
Gotta girl singing like me

Gotta girl singing like me

When I'm whisperin in your ear, I know I got you listening baby  
I know your liking what you hear, now lets leave up out of here baby  
When I'm whisperin in your ear, I know I got you listening baby  
Cause when I put my hands on you, girl I'm gonna drive your body crazy

When I get them off in the room  
We aint playing by no rules  
Got em singing melodies  
And it sounds like ya favorite song playing on the radio  
Can't get enough of me  
Gotta girl singing like me  
Gotta girl singing like me  
Gotta girl singing like me  
Gotta girl singing like me (repeat 2x)

I gotta singing like me  
(With no attitude)  
I gotta singing like me  
(When I get them up in my room)  
I gotta singing like me  
(Make you feel like the boo)  
I gotta singing like me  
(Make em do what it do)  
I gotta singing like me  
(Oh give it to you baby)  
I gotta singing like me  
(Oh give it to you baby)  
I gotta singing like me  
(Oh give it to you baby)  
I gotta singing like me  
(Yeah)
