

Winter In Hamburg

Chris Caffery

It was- winter in Hamburg
The first time I came
My life changed for me
I realized I belonged
In this place
Just a bright eyed kid
A rock n roll dream
My friends and a beer
The world fell that year
The faces, the smiles
Erase the miles
Like home away from home
Winter in Hamburg

I read the books
Millions of lives been here
Many nations at war
Fight to be free
But everything changed
After 9-1-1
It was never the same
The end had begun

I never wanted to go
Always wanted to stay
Right before my eyes
It fade away

It was winter in Hamburg
The next time I came
My life changed for me
I realized I belonged
In this place
Just a bright eyed kid
A rock 'n roll dream
My friends and a beer
My golden years
The faces, the smiles
Erase the miles
Like home away from home
Winter in Hamburg

All alone
(All alone)
Guns aligner
(Aligner)
Help me find my home
(Will I ever get home)

All alone
(All alone)
Guns aligner
(Aligner)
Help me find my home

It was winter in Hamburg

The last time I came
My life changed for me
I realized something's wrong
In this place
Still a bright eyed kid
His rock 'n roll dream
My friends were not here
I she'd a tear
I can't find the smiles
To erase the miles
It's cold away from home
Winter in Hamburg
