Chris Cornell

- 1. You are the road that I will travel, you are the words I write You are the ocean I will swallow, you are the wind I ride You are the cause to keep my head up high, I will survive You gotta know I'll stay beside you, right till the day I die
- *: I don't want to change anymore
 I've already paid
 I don't have to pray anymore
 Because my soul has been saved
- R: Wherever I come, wherever I go, you're never far away, far away (3
 x)
 Never far away
- 2. You're the blood that's in my veins, you're my second skin I'm a feather on the wind, you will bring me in Every heart should have a beat, every night a dream Every king should have a queen, every saint a sin
- *: I don't want to change anymore...
- R: Wherever I come...

When I go hot you make sure I don't break Gimme life inside of heaven's gates, I know it's heaven You taught me how to live like life hurts Gave me definition for the worst I know that there ain't no space

between you and me

R: Wherever I come...
