

# Other Side of Town

Chris Cornell

We met at party bout almost 2 years ago...  
But there was a part of me that she just didn't know...  
I tried to hide it from her, but it didn't take long...  
Before she would have found me, and...  
See where I go.

Wanted to tell her... but I just didn't know how...  
And every time I'd spit the words, wouldn't come out...  
Everyone will tell yah that old habits die hard...  
N it's just the same for me...

She wouldn't compromise,  
She'd wanna stand her ground,  
She wouldn't talk to me  
She wouldn't make the sound

She wanna' say goodbye  
I wanna' reconcile

What type of shit is she on?

I should've left that side of town... alone  
I should've left that side of the town... alone  
I should've left that side of town... alone  
A long... Time ago.

I should've left that side of town... alone  
I should've left that side of the town... alone  
I shoud've left that side of town... alone  
A long... Time ago.

Guilty, Is getting to me but she wasn't home  
Keep trying to call but she wont pick up her phone  
My conscience is speaking to me, But I'm in the wrong  
She don't wanna talk to me  
She'd rather go

Tried to apologize for the lies that I told...  
She don't wanna hear it, n' told me to leave her alone...  
I didn't appreciate her until she was gone...  
N now it's too late for that...  
She wouldn't compromise,  
She'd wanna stand her ground,  
She wouldn't talk to me  
She wouldn't make the sound

She wanna' say goodbye  
I wanna' reconcile

What type of shit is she on?

I should've left that side of town... alone  
I should've left that side of the town... alone  
I should've left that side of town... alone  
A long... Time ago.

I should've left that side of town... alone

I should've left that side of the town... alone  
I shoud've left that side of town... alone  
A long... Time ago.

She won't even talk to me.NO!  
She wont even talk to me... NO!  
She won't even talk to me... NO!  
She won't... She won't!

She wouldn't compromise,  
She'd wanna stand her ground,  
She wouldn't talk to me  
She wouldn't make the sound

She wanna' say goodbye  
I wanna' reconcile

What type of shit is she on?

I should've left that side of town... alone  
I should've left that side of the town... alone  
I should've left that side of town... alone  
A long... Time ago.

I should've left that side of town... alone  
I should've left that side of the town... alone  
I shoud've left that side of town... alone  
A long... Time ago.
