

## Riding on a Rainbow

Chris de Burgh

We're riding on a rainbow  
We're flying free  
We're riding on a rainbow  
Yes, you and me

There is a place I love in africa,  
That they call the rainbow land.  
It is a place to grow and live as one,  
In a brotherhood of man

There is light that comes from africa,  
And it's shining round the world.  
Let all the colours speak of pride and joy,  
In a voice that must be heard

We're riding on a rainbow,  
We're flying free,  
We're riding on a rainbow,  
Yes, you and me.

There is a heart I hear in africa,  
And it's beating like a drum.  
Let everyone get up and to the stars,  
We will go marching on.

I had a dream I was in africa,  
I was soaring like a bird,  
And then a million voices all around,  
Was singing to the world...

That we are riding on a rainbow,  
We're flying free,  
We're riding on a rainbow,  
Yes, you and me.

We are together on a rainbow  
We're flying free,  
We are forever on a rainbow,  
Yes, you and me.

We are riding on rainbow  
We're flying free  
We're riding on a rainbow  
Yes, you and me
