## **Riding on a Rainbow**

## Chris de Burgh

We're riding on a rainbow We're flying free We're riding on a rainbow Yes, you and me

There is a place I love in africa, That they call the rainbow land. It is a place to grow and live as one, In a brotherhood of man

There is light that comes from africa, And it's shining round the world. Let all the colours speak of pride and joy, In a voice that must be heard

We're riding on a rainbow, We're flying free, We're riding on a rainbow, Yes, you and me.

There is a heart I hear in africa, And it's beating like a drum. Let everyone get up and to the stars, We will go marching on.

I had a dream I was in africa, I was soaring like a bird, And then a million voices all around, Was singing to the world...

That we are riding on a rainbow, We're flying free, We're riding on a rainbow, Yes, you and me.

We are together on a rainbow We're flying free, We are forever on a rainbow, Yes, you and me.

We are riding on rainbow We're flying free We're riding on a rainbow Yes, you and me
