

First Place!!!

Chris Garneau

You have killed them
And you don't know why
Your lips, they move
And they only lie

Your house is white
It's got nice things inside
When you are through
You'd better run and hide

In awe, in awe...

This bridge came down, girls and boys
We will rid of you and of your dangerous toys
Like botherlike sun and so
On and so forth, in awe, in awe...

But we, we will win first place!!
And you, we'll never tell you how
But you shoulda known by now

You have killed them
And you don't know
You don't know why
Keep it down
It's no big news, you know?
You know...
