

# I Lose My Heart

Chris Isaak

They say that you don't cry  
Moved on to someone else  
But you go right on smiling  
While I'm left by myself  
Left out and on my own  
With nothing left to do  
But sit and think of things  
That never will come true  
Here comes the part again  
You break my heart again  
Oooh its true  
Here comes a reason why  
Why I'm gonna sit and cry like I do  
Yeah I still love you

Here comes a reason why  
I'm gonna sit and cry like I do  
You found somebody else  
And I'm left by myself  
Oh its true

Yeah I still love you  
They say that someone new  
Is holding you tonight  
But you say nothings changed  
That things will work out right  
Here comes the part again  
You break my heart again  
Ohhhh its true  
Here comes the reason why  
You ought to sit and cry like I do

Yeah I still love you  
I still love you  
I still love you  
Oooohh I still love you
