

# So Long I'm Gone

Chris Isaak

Well I called you for the last time, I won't hang around no more  
I don't even remember the number on your door  
I don't need you any longer, I don't want your devil's charm  
So go and cry your heart out, In your other lover's arm  
So long, I'm gone, you won't forget me  
I hope you recall all of our fun  
So long, be sweet and remember  
When you want me back, think of what you've done

You've lost a guy who loved you, don't say I didn't try  
This time I'm gone forever, I've said my last goodbye  
So long, I'm gone, you won't forget me  
I hope you recall all of our fun, so long, be sweet and remember  
When you want me back, think of what you've done
