Somebody To Love

Chris Isaak

```
Don't you want somebody to love
Someone who could be your true love
Going, always gone
Don't you want these arms around you
Remember when it was I found you
Going, always gone

All your world it seems so lonely
You're always out there on your own
Oh, darlin'
Don't you want somebody to love
Someone who could be your true love
Going, always gone

All this world seems so lonely
You're always out there on your own
Oh, darlin'
Don't you want somebody to love
Someone who could be your true love

Don't you want these arms around you
Remember when it was I found you
Going, always gone
Going, always gone
```
