This Time

Chris Isaak

I know I let you down the last time. You said then there'd be no next time. One more chance is all I'm asking. Is it so hard to be forgiven?

If only I could make you see how much your love could mean to me. This time.. This time..

Cause I know the world can turn against you. But this time I'm gonna be there for you.

I know I said I'd change the last time. But it won't be the same this time.

If only I could make you see, how much your love is changing me. If only we could start again. This time. This time.

If only I could make you see. What one more chance could mean to me. If only we could start again. This time.

This time.. This time. This time.

I know it's gotta work out this time.
