We Lost Our Way

Chris Isaak

We started walkin'
And then we learned to run
I still don't know what
We're runnin' from
You said you loved me
But you couldn't stay

Oh we lost our way In California Down in L.A. They never warn ya

It just all goes wrong, It all turned bad You said that love Was a funny thing And you'd move faster Without a ring

Oh we lost our way
In California
Down in L.A.
Nobody warns ya
It just all goes wrong,
It all turns bad

We searched for something We could not find And somehow somewhere Love got left behind

Yeah we lost our way In California Down in L.A. They barely warn ya It all goes wrong Oh it all turns bad

I don't look back Cause it hurts too much To see everything that We just gave up

Oh we lost our way In California Down in L.A. Nobody warns ya Oh we lost our way In California

And it all went wrong
It all turned bad
It all went wrong
It all turned bad
