

## Your True Love

Chris Isaak

True love (your love)  
True love (your love)  
True love, baby  
That's what you give to me

True love (your love)  
Your love (your love)  
True love, baby  
That's what you give to me

God made the world  
And he made it round  
I got my baby  
And I'm glad I found

Her love was meant for me  
And my baby, she'll always be

She gives me true love (your love)  
True love (your love)  
True love, baby  
That's what you give to me

Uh, true love (your love)  
Your true love (your love)  
True love, baby  
That's what you give to me

True love (your love)  
Your love (your love)  
Your love, baby  
That's what you give to me

Love was made, I don't boast  
When He made you, He made the most  
You've got that certain touch  
To me, baby, you mean so much

You give me true love (your love)  
Your true love (your love)
