Intro G C D x4

My friends were different, nothing much to say

G C D
Something cha-a-anged
Something cha-a-anged
C D
She believed in blue skies
I just brought her rain
GDGCD

When they watched another walk her down the aisle
She found a true heart like I feared she would
But what I found was what we had was good
G C D
Something cha-a-anged

I must have been a fool to ever come back
I should've never gone across the tracks
Down by the depot is where we met
But I walked away and I'm walking yet
